January 2026

We are now into the twenty-first month of our works at Penygawsi Primary School. Summarised below is the progress that we have made through September, as well as the planned work going forward.

WORKS UNDERTAKEN TO DATE

Recently completed tasks :-

- Demountable classrooms have been soft stripped out and removed from site.
- Soft strip works Internally to the old school superstructure is underway .
- Some external ground re-modelling works have been undertaken for the future carpark area.
- New cycle shelters have been constructed.
- New refuse bin storage area is being built with concrete slab cast and brickwork walls are under construction.
- Disconnection of the old school services undertaken by the utility companies.
- New access road has been constructed with a revised pedestrian route up to the new school entrance.

WORKS PLANNED FOR JANUARY 2026

- Complete the construction of the new bin store and cycle storage facilities that are located within the Phase 2 footprint.
- Continue with the soft strip out works within the old school building.
- Demolition works to the old school building planned for mid October.
- Grub-up and remove the old school foundations and make the area safe for following operations.
- External ground re-modelling works to restart following demolition.
